

Rev. Judge Feversstein,

11.6.08

OK
I would like to start this letter off by saying I'm sorry for not thanking you for the sentence handed down to me on the 5th of Nov., Deborah Harrell, docket # 07 GE 516 (JUF).

On the 5th of Nov. you have 'God' had put me thru a test and I failed. He showed me that even thou in making positive changes in my life I still have a long way to go. And I will use this time to continue to better myself not just for me but for my two daughters as well so I can put all this behind.

When you sentence me to 96 months I went blank, I lost my mind cursing everyone but my self. I went on for a hour before 'God' sat me down and spoke to me. And He said, "if you take time ^{OUT IN} ~~and~~ life and think before you act alot more changes would be made for the best. You are your worst enemy in life."

I sat for 10 minutes and thought to myself and smiled. He answered my prayers like he always do. And I saw what he spoke, yes you sentence me to the 96 months a year off good time, a year 1/2 work house, a year drug program and I have 17 months in, that's a little under 4 years left.

I prayed every night to get 5 years and my lawyer did a great ~~job~~ ^{job} and I really believe from my heart that you had that calculated out like that and

to give me the Supers but you did it the way you wanted to. Thank You so much ya hovar, all thru out my court dates you were tough right on down to sentencing. (fire'ing feverstone, will light you up on sentencing date) is what the inmates say here. But ya hovar your fore and ever thov in a inmate you always let me or my att: know you received my letters, and it balls down to your decision. God willing i'll make it home in best of health, phy., ment., and emot., when it's my time ya hovar. And i make a promise to everyone that i won't hide from my history, because im going to make history.

Thank You

Lohawti "footiz" Harrell
